R6 King Mine QASP.docx

Hi Lance,

This is the only QASP I've received from anyone working on the Gold King release. At this time I am not willing to say it is the sampling plan still in use. Perhaps Randy or someone at one of the ICs can send us both the latest version of the sampling protocols.

Cheers,

ned

Minor edits are being made to the sediment portion of the document. Otherwise the document is complete.

The drinking water addendum is being edited to reflect last night's changes (analytical parameters).
